THE ECONOMY RADIATOR COMPANY  
MICHAEL & ENA WOOD  
THE GRANGE  
LITTLE HUTON  
SESSAY  
THIRSK  
NTH YORKSHIRE  
YO7 3BQ

Dear Michael:

In my professional life as CONTRACT MANAGER PURCHASING, I, am constantly negotiating deadlines and dealing with suppliers and contractors.

However my dealings with yourself and your company are to be recommended.

I would recommend the ECONOMY RADIATOR COMPANY to anyone.

As a small synopsis,

I had been all electric, economy 7 storage radiators, providing my heating.

However as time has gone on, and after several extensions, the property required more modern heating.

I researched both gas and electric central heating, on finding your site on the internet; I approached you regards the "the economy radiator" heating system.

You immediately understood my dilemma, within days; you had surveyed my property and given me a quote.

I accepted your recommendations, and you installed exactly when you said you would.

I cannot over state my delight with both the product and yourself and your team.

Please feel free to show this, letter/reference to anyone interested, and tell them to feel free to enquire further if they so wish.

Once again thank you, as I write this from my very cosy armchair.

Yours sincerely

PAUL THOMPSON
